- Tested software with test suites, asserts statements, and fixtures

## SKILLS & INTERESTS

- C programming language
- Python programming language
- JUnit Integration Testing
- Selenium IDE and Web driver
- ER-Diagram Development
- SQLite 3
- JetBrains IDEs

## ACCOMPLISHMENTS

### Septa Award

June 2017

- One of 6 students to receive this award out of 750 graduating students in Syosset High School's Class of 2017.
- Awarded for my success in designing and developing an application for the Apple App Store, approved September 2016, despite the lack of software development courses and clubs offered. I was recognized for my ability to teach myself and follow my passion with a drive strong enough to enable such success.

## COMMUNITY SERVICE

### ELEVATION CHURCH

Production Team

2018-Present

- Operated video control and stage lighting during worship experience
